

OVERVIEW

Chartis Physician Leadership Institute

Every aspect of health system performance is directly influenced by the decisions and behaviors of its physicians. In the value-based healthcare environment, the role of physicians and physician leaders becomes even more vital to the success of the system. Physician engagement and alignment with enterprise strategy and operational goals are key differentiators in the performance and success of leading health systems in the new era of healthcare.

The Chartis Physician Leadership Institute (CPLI) partners with leading health systems and physician groups to achieve sustainable market advantage through superior clinical, operational and financial performance based on exceptional physician alignment, practice management and physician leadership development.

Opportunities for Partnership

Uniquely powerful transformation occurs from successful collaboration with aligned physician leadership. Our thought leadership spans the care continuum - acute, ambulatory, primary, specialty and post-acute.

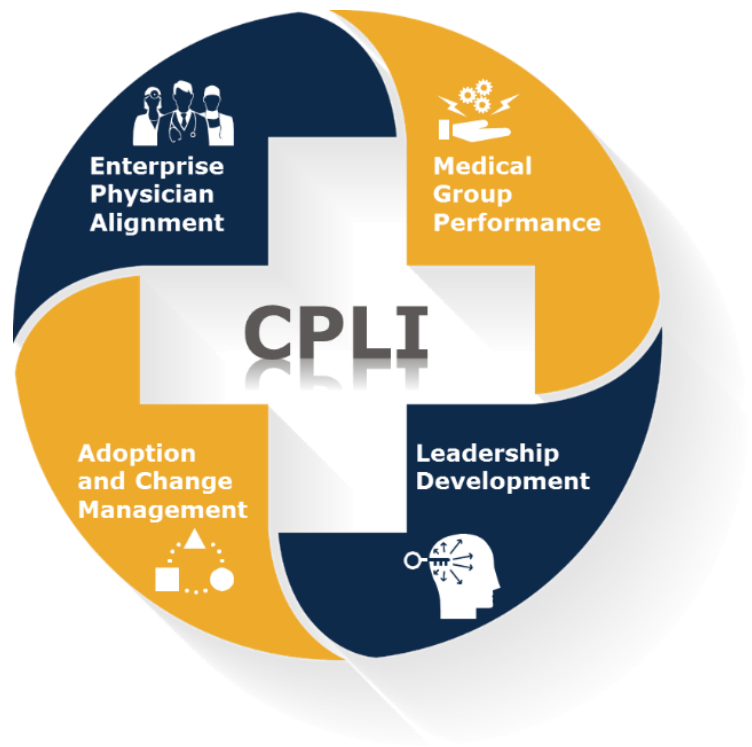

- 1. Enterprise Physician Alignment.** CPLI helps organizations create high affinity physician engagement with accountability for performance based on strategic priorities, where physicians are able to demonstrate ownership and drive clinical and operational change.
- 2. Medical Group Performance Optimization.** Our physician advisors guide physician groups and provider networks through the optimization of clinical, operational and financial performance; helping them establish the core capabilities needed to transform clinical care delivery and drive value.

3. Physician Leadership

Development. CPLI helps organizations build and enable robust physician leadership and management at all levels.

4. Adoption and Change

Management. Our advisors help clients engage physicians in the clinical and leadership change management required for highly reliable and consensus-driven excellence in clinical outcomes.

Privileged to Serve

We have been privileged to work with the nation's leading integrated health systems, not-for-profit health systems, children's hospitals, accountable care organizations, community-based health systems and healthcare services organizations. This experience gives us a deep understanding of the unique dynamics facing the physician leader and the delivery of care. We strive to deliver new perspectives and ideas, tailored to each provider, their market and its evolving competitive landscape.
